COUNTY OF ERIE, NEW YORK
REQUEST FOR PROPOSALS # 1420VF

TO PROVIDE PREVENTIVE VISITATION SERVICES

I. INTRODUCTION

The County of Erie, New York (the “County”) is currently seeking proposals from qualified agencies (Proposer) interested in providing **preventive visitation services**. The target population to be served is families with children in out of home placements, in need of supervision and intervention. Applicant agencies may request to provide programs that deliver a continuum of visitation services that are designed to provide families with a range of oversight and settings. The purpose of this document is to present interested parties with information to prepare and submit a proposal to provide these services.

This service is based on the principle that meaningful, frequent, flexible, and appropriate visitation is key to the successful reunification and permanency of children and families in the child welfare system. It allows for continuity in the family once it has become fragmented, due to neglect or abuse issues. It provides parents involved in reunification efforts and/or litigation, a way to continue having contact with their children, as well as assistance in improving parenting skills. It can also provide a safe and therapeutic setting for visits between parents or relatives and their children, to support the individual goals of reunification or termination of parental rights.

Proposers are invited to respond to this request. It is the County’s intent to select the Proposer(s) that provides the best solution for the County’s needs.

The County Department of Social Services has identified the following goals as being consistent with this Request for Proposals:

1. Reduced incidences of child abuse and neglect for referred families.
2. Insuring the successful community reintegration of children returning to the community from out of home care.
3. Safely maintain children and youth, who have been deemed at-risk of placement, in their own homes, or in the homes of relatives.

Proposers are invited to respond to this request. It is the County’s intent to select the Proposer(s) that provides the best solution for the County’s needs. This document will inform the service delivery network of basic requirements that Erie County uses as part of its standard contract process.

All applicants, including those agencies currently under contract with the Erie County Department of Social Services to provide preventive visitation services, must participate in this selection process in order to be considered for continued funding.

The County reserves the right to amend this RFP, reject any or all of the proposals, or any part thereof, submitted in response to this RFP, and reserves the right to waive any irregularities or informalities, if such action is deemed to be in the best interest of the County. The County reserves the right to request additional information from any Proposer, and to award negotiated contracts to one or more Proposers.

This RFP is not intended and shall not be construed to commit the County to pay any costs incurred in connection with any proposal or to procure or contract with any firm.

The County will only contract with firms that do not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability, marital status, sexual orientation, citizenship status or any other status protected by New York State and Federal laws.

II. FUNDING AND BUDGET

A maximum award of \$800,000.00 is potentially available for allocation for the requested services for 2015.

The selection committee will make a recommendation to the Commissioner of ECDSS, and in turn this recommendation will be made to the Erie County Executive. All contract appropriations are subject to Legislative approval.

The award period will be for a three year term, subject to annual contract renewal, contingent upon the Proposer's successful provision of requested services, data collection, monitoring, and compliance with required reporting. Initial award and renewals are subject to inclusion of funding in the County Executive Recommended Budget and as adopted by the Erie County Legislature, as well as, contingent upon availability of New York State funds appropriated for this purpose.

Future awards will be dependent on available funds and subject to the demonstrated fiscal and programmatic stability of the applicant agency, as well as their meeting all of the ECDSS requirements. More than one provider may be selected for funding for 2015.

Note: Administrative costs may not exceed 15% of the requested funds for 2015, and thereafter, by Executive Order from the NYS Governor and the Erie County Executive, it will be capped at 15% for all future years. Lower Administrative costs will be favored when rating proposals. Erie County seeks to move in the direction initiated by New York State to keep administrative costs at this level or below.

V. SCOPE OF PROFESSIONAL SERVICES REQUIRED

A. Introduction:

The purpose of this document is to provide interested parties with information to prepare and submit a proposal to provide visitation services to families with children in out-of-home placements, in need of supervision and intervention. Applicant agencies may request to provide programs that deliver a continuum of visitation services that are designed to provide families with a range of oversight and settings. This document will inform the service delivery network of basic requirements that Erie County uses as part of its standard contract process. This service is based on the principle that safe, meaningful, frequent, flexible (available weekends and evenings) and appropriate visitation is key to the successful reunification and permanency of children and families in the child welfare system. It allows for continuity in the family once it has become fragmented, due to neglect or abuse issues. It provides parents involved in reunification efforts and/or litigation, a way to continue having contact with their children, as well as assistance in improving parenting skills. It can also provide a safe and therapeutic setting for visits between parents or relatives and their children, to support the individual goals of reunification or termination of parental rights.

B. Purpose:

The purpose of this RFP is to solicit proposals from qualified community agencies that are able to provide preventive visitation services to children and their families in and out of home placements, in need of supervision and intervention for the purpose of:

- Enabling a child who has been placed in foster care to return to his or her family at an earlier time than would otherwise be possible; or
- Reducing the likelihood that a child who has been discharged from foster care will return to foster care.

C. Population Served:

The target population for this RFP is families with children in out of home placements, in need of supervision and intervention, and visitation for children placed with relatives or kin when child(ren) are at risk of placement in foster care.

Preventive services for this population are designed for families who are either required to participate in services as a result of a CPS investigation and subsequent family court involvement or families who agree to receive services based upon significant risk factors for child abuse/neglect as determined by our Child Welfare staff.

Generally, Preventive Services are only provided for children under the age of 18 years old, in that only children under 18 may be at risk of foster care. The provision of preventive services is offered to families through referral by the Erie County Department of Social Services (ECDSS) only, referrals cannot be accepted by outside agencies or the community as a whole. A majority of referred families are referred as a result of Child Protective Services (CPS) involvement that leads this Proposer to determine that preventive services would enhance the safety of children.

The contracted caseworker assigned to a referral, must make direct (face to face) contact with a referred family within two (2) business days of receipt of referral. This is considered an essential component of the service delivery system and funds for the project will be tied directly to the Proposer's ability to meet this standard.

D. Services to be Provided:

The successful bidder, acting on behalf of the Erie County Department of Social Services, must provide the following services to those individuals referred to them by ECDSS:

These services include, but are not limited to, a regular and consistent schedule of visits between parent or relative and child in a continuum of supervised visits, from high-need, secured settings to a progressively lessened level of supervision, and ultimately to unsupervised visits, leading to placement discharge. The service allows parents to maintain continuity and to strengthen or form positive relationships with their children and solidify relationships between siblings who do not reside in the same home.

Agencies that provide visitation services will be promoting and assisting families, referred by ECDSS who may be receiving protective, placement, and/or preventive services to develop and practice healthy interactions with their children with the goals of reunification, permanency, and child safety.

A central focus to the provision of visitation services is the commitment foster parents must have toward the visitation process.

The program will target children and families with the following criteria:

1. Families with children from infancy through 18 years of age
2. Residence in Erie County
3. Families who are involved in protective services, placement, and/or preventive services, as determined by ECDSS.
4. Families referred from ECDSS, requiring visitation services across a continuum of high, medium, or low supervision and therapeutic intervention.

The objective of visitation services is to provide parent or relative and child with skills needed to reunite or reach another permanent living arrangement, by interacting with each other in supervised and guided interactions in a variety of settings, thus promoting child safety and permanency.

➤ **The goals for visitation between parents or relatives and children in placement** are to promote bonding and positive attachments, parenting skills building, and through staff intervention and education, guidance in practicing positive parental roles so that families can be safely reunited in a timely manner.

➤ **All visitation services** are designed to meet the ASFA goals of safety, permanency, and child and family well-being.

E. Requirements:

The successful proposer must be able to meet and explain how they will meet the following requirements:

1. A continuum of visitation programs, from high to medium to low in the degree of oversight, security, and guidance, dependent on the individual issues and needs of the family.
2. Assisting the parent or relative with ongoing training opportunities, care coordination and community and online resources, regarding problem-solving, stress reduction, effective parenting, behavior modification, access to medical and/or mental health resources, and access to visitation, including providing transportation.
3. Facilitating healthy interactions among the child's support network; i.e. father and mother of child, siblings, step-parent, foster parent, grandparents, etc.
4. Providing timely, available, and flexible hours of operation that do not compromise attendance at school or work in which families can access the service in a variety of settings (at agency, in the community, at home, etc.).
5. Providing the family with transportation and interpretation services when needed. Agencies should make every attempt to remove potential barriers to the goal of visitation between child and family members.
6. Assisting the family in identifying volunteers or support resources.
7. Providing positive experiences for the child to assist with the overall family and foster care well-being and functioning.
8. Involving all foster parents and kin caretakers in the arrangement and access to visits between child and family.
9. Accommodating large sibling groups during visitations.
10. Providing services and access to service during weekends and evening hours.
11. Ensuring safe and secure visitation when a parent has a known history of hostile behavior.
12. Provide a consistent means of assessing the quality of the visit to be shared with the DSS case manager no later than 5 days following the visit(s).
